

DYNAMEX™ * RISE IT

Paver Pedestal System for Cement & Porcelain Pavers

The Dynamex™ Rise-It Paver Pedestal System, is an integral part of your hardscaping installation.

Designed to fully support the load of installed pavers and foot traffic, while reducing vibration & shock.

The main advantages of the Rise-It system are simplified and reliable installation, improved drainage and protection of critical roofing membranes and moisture barrier systems.

Precision manufactured and durably made from **100% recycled materials**; Due to their high-load bearing properties and ease of leveling, the Rise-It system can be used to convert unused roof space into valuable patio real estate. Apply over broken sidewalks, sand and gravel or uneven concrete areas to convert them into well-drained, level surfaces for entertaining, storage, or improved access.

Assembly Guide

Complete installation guide is available, please inquire.

Applications

The perfect solution for Hardscape Projects including:

- Rooftops
- Terraces & Decks
- Patios
- Balconies, Verandas & Porches
- Walkways
- Around Swimming Pools

Lightweight & Easy to Install

Resistant to the Elements

Extreme Environments
From -58°C (-76°F) to 105°C (221°F)

Excellent Load Bearing
Tested to Exceed 2,000 lbs of Load

Anti Vibration
Adsorbs Shock & Impact

Reduce Sound Transfer by up to 40%

Exceptional Project Value
Made from 100% Recycled Components

*Multiple Patents Pending
