Coverage:	35-40 ft ² /ton
Common Uses:	Mortared Facing, Garden Borders

All measurements and coverages are approximate.

Characteristics:

River Grey LedgeStone is a form of Mica Slate that has varying heights, lengths, and depths. It has a fairly high content of Mica flakes meaning there is a considerable shine from the natural Mica deposits. This all natural material is perfect for facing a wall when a very linear look is desired.

Description & Color:

River Grey LedgeStone is primarily charcoal grey with tan, silver and gold variations. It has a very deep natural cleft surface.
