Common Uses:	Drystack walls, Mortared walls

All measurements and coverages are approximate.

NATURAL STONE  
ADDS TIMELESS  
ELEGANCE

## Packaging & Delivery:

Brohm Landscape Brick is packaged in wire baskets on pallets with a total weight of approximately 3900 pounds per pallet. Brohm Landscape Brick is ordered by the pound or by the pallet.

Please call for availability.

## Characteristics:

Brohm Landscape Brick is primarily used for drystack retaining walls. This material is inherently blocky by nature and makes for easily stacked walls under 24" high. By virtue of its deep bed depth it does not have the coverage of conventional basalt wallstone.

## Description & Color:

Brohm is rich in grays, taupes and light to reddish browns. It is naturally tumbled and offers an aged weathered appearance.
