River Rock Block Bench

## Packaging & Delivery:

Our River Rock Block Benches are typically packaged individually on wooden pallets or dunnage depending on weight.

## Characteristics:

Our benches are made from indigenous River Rock locally quarried in the Squamish Basin of southwestern British Columbia. These benches feature natural weathering on all sides along with a sawn top and bottom for stability. Ideal for patios, courtyards, playgrounds or any other outdoor space.

## Description & Color:

Our River Rock Block Benches being a natural product, come in a wide variety of natural colours including grey, and green. Many include very unique inclusions of charcoals, taupes and ocre tones. Lustrous honed top deepens the natural colour of each and every bench.
